## **Custom Estimate Requests**

We understand there are instances when you are looking to repair your vehicle and you would like to try to save money by asking us to change our suggested repair process.

For example, if you have a scratch or dent and instead of properly repairing and painting the area, you would like for us to just “touch it up.”

We are willing to help you out if what you are requesting is technically possible. HOWEVER, please be aware that if we are diverting from our suggested repair or factory repair procedures, note that the work will be done to the best of our abilities and may not be considered perfect. It should hopefully look better but in no way will it compare to proper repairs and you may not be completely satisfied as you would be if done correctly.

As always, we are happy to work with you to try to ensure you are getting the repairs that you are wanting, knowing that cutting corners may not produce the exact result you are hoping for. Because of these reasons, you will be liable for the estimate amount presented to you, plus any additional needs that arise (if applicable).

**I have read and understand that I have requested to have Bondurant Auto Body proceed with a custom estimate of my vehicle knowing that results are not guaranteed or warrantied. I agree to pay the cost as it applies to my unique repair request.**
